

Gateway SA1 Keyboard Key Replacement

A short guide on how to remove keys on the keyboard and replace them.

Written By: Shawn Cabral

INTRODUCTION

Notice: The keyboard does not need to be removed in order to replace the keys.

TOOLS:

- [iFixit Opening Tools](#) (1)
-

Step 1 — Keyboard Key

- Insert plastic opening tool into the side of key as shown.

Step 2

- Press downward on outer end of plastic opening tool until key begins to pop up. (you will hear a click)
- Repeat Step 1 and Step 2 on opposite side of same key.

Step 3

- To insert new key, place it directly centered over the rubber nipple and press down firmly.

To reassemble your device, follow these instructions in reverse order.
